

GLASS TUBE THERMOMETER

Model : GT500

Wisco glass tube thermometer is compactly designed, ruggedly constructed and is widely used in HVAC and other industrial applications. This gold-coloured aluminium case thermometer is available in 6" (150mm) scales. A brass socket 1/2" BSP is standard (st. steel optional) and the thermometer is available in either a straight model (bottom conn.) or 90°angle model (back conn.)
